POLYURATHENE RESIN FOR CABLE JOINTING

RESIN470
Cable Jointing Kit Resin Pack - 470Ml

- High dielectric strength
- Superior adhesion to cables
- Water and moisture barrier
- Chemical and UV resistant
- Low exothermic reaction

PRODUCT DESCRIPTION

Filoform Polyurethane Resin provides strong, watertight encapsulation for low and medium-voltage cable joints, ensuring excellent electrical insulation, mechanical strength, and long-term protection against moisture and chemical exposure.
