ADVANTECH - USB 3.0 PCIE FRAME GRABBER CARDS

PCIE-1154-AE

- PCIe 2.0 x4 interface delivering 2 Gbps total bandwidth
- Supports four USB 3.0
- Supports 1500-mA max. current per port
- Supports cable-lock mechanism for reliable cable connection

PRODUCT DESCRIPTION

The PCIE-1154 is a high-bandwidth industrial-grade expansion card designed for connecting USB industrial cameras in machine vision, factory automation, and medical applications, as well as other applications that require high-data transfer speeds.

Featuring Fresco FL1100 USB 3.0 host controllers with an independent bandwidth of 5 Gbps while operating four ports simultaneously, the four USB 3.0 ports feature 1500-mA current ensuring the use of stable power for external USB devices. Exclusive features include an LED indicator for each port and a cable-lock mechanism for reliable cable connection.

SPECIFICATIONS

Camera interface	USB 3.0
Connector	RJ45
Dimensions	111.15mm x 117mm
FPGA	No
Number Of Ports	4
PC Bus Interface	PCI Express x4
Temperature range bearing, from	-40
Temperature range bearing, to	85
Temperature range from	0
Temperature range to	60
