

## INTERFACE RELAYS - SLIMLINE

RNC1CO024/SNB05-E-  
24V Dc ,1 no c/o 6mm interface Relay &

- Ultra-slim profile for dense panel layouts
- Quick-mount DIN rail installation
- LED status indication for easy diagnostics
- Compatible with a wide range of coil voltages

### PRODUCT DESCRIPTION

Slimline interface relays are compact, high-performance switching devices designed for control panels where space efficiency matters. These relays ensure reliable signal transmission between control and load circuits while maintaining electrical isolation.
