T1-ZH25X40
Panel Trunking 25W*40H HF 72m/pk-B12565

- Flame-Retardant Build
- Slotted for Convenience
- Modular & Scalable

IBOCO

PRODUCT DESCRIPTION

Hager's Halogen-Free LSF (Low Smoke & Fume) trunking is a high-performance cable management solution, ideal for commercial, industrial, and residential environments. Manufactured from halogen-free, flame-retardant materials, it minimises toxic fumes and corrosive gas emissions in the event of a fire—ensuring greater protection for people and sensitive equipment. The slotted design allows for easy cable access, better airflow, and tidy installations. Available in multiple sizes with a full range of accessories, this modular system offers a safe, professional finish every time.
