

CAMERA KITS FOR WHEEL LOADERS

GMSL-180°-REVERSING-WL

GMSL 180° Reversing camera system for wheel loader

- Analog PAL/NTSC
- Digital HD
- Active camera systems
- For all types of wheel loaders/compact shovels

Product description

The working position of the bucket on a wheel loader, or other attachments, results in significant limitation of field of view at the rear, side rear and front of the machine. Reversing and active reversing camera systems, in analog and digital.
