

CAMERA KITS FOR ASPHALT COMPACTORS

REVERSING-AC

Reversing camera system for asphalt compactor

- Analog PAL/NTSC
- Digital HD
- Active reversing and active reversing-front view systems
- Suitable for all types of asphalt rollers and ground rollers

Product description

The design of an asphalt roller can often cause significant limitation to the field of vision to the rear, side rear and directly in front of the machine. With Orlocos range of camera kits, including reversing, surround, active and many more, these vision limitations don't need to be a worry.
