

## VALCO - STAINLESS STEEL SIDE MOUNT LEVEL SWITCH - SML SERIES

00.0002.9101

100mm length, SS, NC/NO, 1.5M cable, Max 30 bar

- Standard item side mounting position
- N.1 reed switch contact NA/NC/SPDT
- Maximum working pressure 30 Bar
- Maximum working temperature 110°C
- IP65 protection

### Product description

This level switch, with its reduced overall dimensions and simplicity of installation, offers a reliable solution for the control of liquids in all applications where it is necessary to mount a lateral type. The standard version is for installation from inside the tank, on request, execution with possibility of mounting from outside the tank are available

### Specifications

<b>Current</b>	0.5AC/0.7DC
<b>Electrical connection</b>	Pre-cabled 1.5m
<b>Function</b>	N/O & N/C
<b>Hysteresis Max</b>	8
<b>IP Class</b>	IP65
<b>Manufacturer Part No</b>	L1.S52.SML.3.16.KS.C1L
<b>Material of float</b>	Stainless steel 316
<b>Material of seals</b>	FKM
<b>Materials Wetted Parts</b>	Stainless steel 316
<b>Process connection</b>	M16x1.5
<b>Specific gravity</b>	0.67
<b>Temperature range to</b>	110
<b>Voltage</b>	300AC/350DC
