

NYLON LOCKNUTS IP68

APLNM16GRY

Lock Nut M16 Grey Plastic

- IP68 protection
- Lightweight and durable
- Secure fastening
- Easy installation

Product description

Nylon locknuts are designed for fastening cable glands securely to enclosures, panels, and threaded entries. With an **IP68 rating**, they provide a watertight and dustproof seal, making them ideal for demanding electrical and industrial environments. Lightweight yet durable, these nylon locknuts resist corrosion, impact, and vibration.
