

BW BRASS CABLE GLANDS

DBW20

Bw Brass Cbl Gld 20Mm 2 Pt Kt

- Mechanical Retention + Continuity — Secures SWA cable armour while maintaining electrical grounding
- Long-Body Design — Provides enhanced protection to exposed armour wires.
- Standards Compliance — Tested to BS 6121 Part-1, EN 50262, and IEC 62444 for industrial-grade performance
- Material & Finish — Solid brass construction ensures durability; optional nickel plating available.
- IP54 Protection — Offers reliable ingress resistance suitable for dry indoor environments

Product description

The **Rupam BW Brass Cable Gland** is engineered for secure mechanical retention and reliable electrical continuity with single wire armoured (SWA) cables. Designed for indoor use, it features a robust longer body to protect armour wires from impact and integrates seamlessly into electrical systems.

Crafted from premium brass, this gland meets **BS 6121 Part-1:1989**, **EN 50262:1999**, and **IEC 62444** standards, making it a dependable solution for heavy-duty cable entry and termination.
