

CW BRASS CABLE GLANDS

DCW20

Cw Brass Cbl Gld 20Mm 2 Pt Kt

- Ingress Protection: IP66 rated—storm-proof and dust-tight, ideal for outdoor environments.
- Material: High-grade brass (CZ121 Pb3), available in optional nickel or chrome finishes for added corrosion resistance
- Armour Retention & Continuity: Features a detachable clamping ring for secure armour lock and easy cable disassembly during maintenance
- Thermal & Mechanical Resilience: Durable brass construction withstands industrial demands and temperature variations. Compliant with mechanical and electrical standards for safety

PRODUCT DESCRIPTION

The **CW Brass Cable Gland** by Rupam is built for reliable electrical and mechanical termination of Single Wire Armoured (SWA) cables. Designed for both indoor and outdoor use, it preserves armour continuity and securely clamps the cable for durable performance—and it's engineered to ease maintenance and remote connection procedures.
