

## BRASS REDUCERS

EPN/M20-M16

Reducer Brass M20mm-F16mm (852016)

- High-quality brass construction
- Thread size adaptability
- Reliable performance

### PRODUCT DESCRIPTION

Brass reducers are designed to adapt cable gland entries to smaller thread sizes, ensuring a secure and precise fit. Manufactured from high-quality brass, they provide excellent strength, corrosion resistance, and long-lasting performance in both indoor and outdoor applications.

These reducers allow flexibility when installing cable glands, helping electricians and contractors match mismatched thread sizes without compromising safety or reliability.
