

SCHNEIDER ELECTRIC ACTI 9 MCB'S, RCBO'S, BUSBAR

A9XPCM04

Set Of 4 Connectors

- VisiSafe™ Technology
- Compact, Modular Design
- Dual Protection with RCBOs
- High Breaking Capacity
- Quick & Safe Distribution with Busbars

Product description

The **Schneider Electric Acti 9 range** is a premium modular protection and distribution system designed for modern electrical installations. Engineered for safety, reliability, and efficiency, the range includes **Miniature Circuit Breakers (MCBs)**, **Residual Current Breakers with Overcurrent protection (RCBOs)**, and **fully insulated plug-on Busbars**.

Acti 9 MCBs provide high-performance short-circuit and overload protection, while RCBOs combine this with earth leakage detection for full circuit safety. The plug-on busbars allow fast, error-free installation and ensure neat, organized panel layouts. With features like **VisiSafe™ technology**, compact DIN-rail mounting, and full compliance with international standards, Acti 9 is ideal for commercial, industrial, and residential applications where reliability and safety are non-negotiable.
