

ISOBAR P - B TYPE THREE PHASE DISTRIBUTION BOARD INCOMERS

SE125SW3

3 POLE 125A SWITCH KQ LOADCENTRE

- Perfect fit for Isobar P-B distribution boards
- MCCB, switch disconnecter, and fuse switch options
- Compliant with IEC 60947 and BS EN regulations
- Pre-fitted terminals and mounting points
- Maintains stable power flow under heavy loads

Product description

Isobar P-B Type three-phase distribution board incomers provide the main power entry and primary circuit protection for your Isobar installation. Available in MCCB, switch disconnecter, and fuse switch configurations, these incomers are engineered for safety, durability, and full compatibility with Isobar P-B boards.

Ideal for commercial and industrial applications, they ensure secure connection to the incoming supply while enabling effective load management.
