VZ0

Isolator Main Pole Module VCF0 unit

- Full compatibility – Designed specifically for Schneider Vario isolators
- Flexible configurations – Customise isolators to suit different applications
- Durable & reliable – Built for long-lasting use in demanding environments
- Improved safety – Options for enhanced protection and control

Product description

Complete your Schneider Vario isolator setup with a full range of **accessories** designed to enhance flexibility, safety, and ease of installation. From handles and shafts to auxiliary contacts and mounting options, these accessories ensure that your isolator solution meets the exact needs of your panel or machine.

Built with the same reliability and durability as the Vario isolators themselves, Schneider accessories guarantee seamless integration, making them the ideal choice for contractors, panel builders, and OEMs.
