PRODUCT DESCRIPTION

Harmony XB4 Metal Range Key Switches from Schneider Electric are designed to provide secure and reliable operator control in industrial and commercial environments. Built with a strong metal body, these switches combine durability with the added safety of key-operated access, ensuring only authorized personnel can operate critical functions.

Available in a variety of key types, switch positions, and configurations, the XB4 key switches integrate seamlessly into control panels and machinery. They feature modular design for simple installation and compatibility with other Harmony XB4 components.
