

## HARMONY XB4 METAL RANGE ILLUMINATED PUSHBUTTONS

XB4BW36B5

Pushbutton Illuminated 1 N/O 1 N/C Blue

- Robust metal construction for demanding environments
- LED illumination for high visibility and energy efficiency
- Multiple colors and actuator styles available
- Modular design for easy integration with XB4 contact blocks and accessories
- Ideal for control panels, machinery, and automation systems

### Product description

The **Harmony XB4 Metal Range Illuminated Pushbuttons** from Schneider Electric deliver outstanding performance for industrial control applications. With a robust metal construction and bright LED illumination, these pushbuttons provide clear status indication, ergonomic operation, and long service life.

The modular design ensures easy installation, while the wide range of colors and actuator options offers flexibility across different applications. Ideal for harsh industrial environments, Harmony XB4 pushbuttons combine reliability, safety, and style.
