

ACTI9 IKQ MCBS

SE10B106

IKQ 6A 1P B MCB

- Guards against overload and short circuit faults
- Saves space in distribution boards
- Available in various current ratings and poles
- Meets IEC/EN 60898-1 standards
- Easy-to-read trip position window

Product description

The Schneider Electric Acti9 IKQ MCB range provides dependable protection against overloads and short circuits in electrical circuits. With a compact form factor and high breaking capacity, these miniature circuit breakers are suitable for commercial, industrial, and residential installations.

Engineered for quick installation and long-term reliability, Acti9 IKQ MCBs feature clear trip indicators, robust terminals, and compliance with IEC/EN 60898-1 standards. They are available in a variety of current ratings and pole configurations to suit diverse wiring requirements.
