

ACTI 9 RCBOS 2 MODULE C CURVE

A9DC3606

A9 iCV40N 1PN C 6A 30mA A RCBO (*)

- Dual safety protection
- Compact 2-module size
- Handles high inrush load
- Reliable fault detection
- Easy panel installation

Product description

The **Acti 9 RCBO 2 Module C Curve** delivers combined residual current and circuit protection in one compact device. Designed for commercial and industrial installations, it ensures reliable protection against overloads, short circuits, and earth leakage faults. The C Curve characteristic provides delayed tripping to handle higher inrush currents, making it ideal for circuits with motors or inductive loads.
