

ACTI 9 IC60N MCBS D CURVE

A9F45102

ACTI9 IC60N 1P 2A D MINIATURE CIRCUIT BR

- D Curve tripping for high inrush currents (motors, transformers).
- Complies with IEC/EN 60898-1 standards.
- Available from 0.5A to 63A ratings.
- Compact design for easy installation.
- Trusted Schneider quality for industrial performance.

Product description

The Acti 9 IC60N MCB D Curve provides fast, reliable protection for high inrush current applications. Designed for industrial use, ensuring safe, efficient operation and compliance with international safety standards.
