

HANDLES, TERMINAL COVERS, ACCESSORIES

LV429338T

NSX C1 Extended Rot. Handle Blk

- Enhanced safety – Protects terminals and live parts from accidental contact
- Reliable operation – Smooth, ergonomic handle control for MCCBs and isolators
- Versatile compatibility – Fits a wide range of Schneider models

Product description

Complete your Schneider MCCB and isolator installations with a full range of **handles, terminal covers, and accessories** designed for safety, reliability, and ease of use. These components enhance circuit protection systems by ensuring proper operation, insulation, and accessibility in both panel-mounted and switchboard applications.

Schneider accessories are engineered for compatibility across multiple MCCB and isolator ranges, helping you achieve consistent performance and professional finishes in every build.
