

ACTI9 IKQ RCBOs

SEE110B03

IKQE RCBO 10A 1P&N B 30mA 1 mod

- Residual current + overcurrent in one device
- Saves space in distribution boards
- Wide range of currents and trip types available
- Meets IEC/EN 61009-1 requirements
- Residual current + overcurrent in one device

PRODUCT DESCRIPTION

The Schneider Electric Acti9 IKQ RCBO range offers two-in-one protection by combining residual current protection (RCD) and overcurrent protection (MCB) in a single, compact device. Designed for demanding commercial, industrial, and high-performance residential applications, these RCBOs ensure both safety and space efficiency in electrical installations.

With a high breaking capacity and compliance with IEC/EN 61009-1 standards, Acti9 IKQ RCBOs deliver reliable performance, quick fault identification, and straightforward installation. Available in multiple current ratings and trip sensitivities, they suit a wide variety of wiring configurations.
