

MCCB 400A FRAMES AND TRIP UNITS

C40N3

NSX400N 400A 3P 50kA Frame

- Powerful protection – Rated up to 400A for large electrical loads
- Customisable trip units – Adjustable for overload and short-circuit protection
- Efficient design – Compact footprint for high-capacity panels

PRODUCT DESCRIPTION

Schneider MCCB 400A Frames & Trip Units

The **Schneider MCCB 400A range** delivers high-performance protection and flexibility for heavy-duty electrical installations. Built for industrial, commercial, and infrastructure applications, these Moulded Case Circuit Breakers combine robust 400A frames with configurable trip units to provide precise, reliable circuit protection.

Schneider's modular MCCB design allows easy adjustment, maintenance, and integration into modern power distribution systems. Each unit ensures optimal safety, reduced downtime, and long-term performance even under demanding load conditions.
