- Sizes: 0.34–2.5 mm², 8–10 mm length.
- Gas-tight, vibration-proof crimps.

Product description

Z+F Ferrules on Reel are designed to make wire termination fast, neat, and reliable – ideal for use in automated production environments. These ferrules suit wire sizes from 0.34 to 2.5 mm² (AWG 22–14) and are made from high-quality tin-plated copper with a durable plastic collar. They fully comply with DIN 46228 Part 4 standards, ensuring consistent performance and safety.
