- Durable Mild Steel Construction – Robust construction designed to provide reliable protection for electrical connections and components.
- Secure Electrical Housing – Keeps terminals, wiring and connections safely enclosed and organised.
- Industrial Applications – Suitable for a wide range of industrial, commercial and electrical installations.
- Industrial Applications – Suitable for a wide range of industrial, commercial and electrical installations.

PRODUCT DESCRIPTION

Egran Mild Steel Terminal Boxes provide a durable and secure enclosure for housing electrical terminals, connections and wiring components. Manufactured from robust mild steel, they are designed to protect electrical connections against external influences and support safe, organised electrical installations. Suitable for a wide range of industrial and commercial applications, these terminal boxes offer a reliable solution for electrical distribution, connection management and control systems.
