- IP66/IP67 protection against dust and water ingress
- IK08 rated for strong mechanical performance
- Transparent or solid lid options for visibility or security.
- Easy wall-mounting and internal component fitting

Product description

Fibox SOLID PC/ABS 1919 Enclosure – Durable Protection for Demanding Applications

The Fibox SOLID 1919 enclosure, made from high-impact PC/ABS, offers excellent protection for electrical and electronic components. Engineered for reliability in industrial environments, it features a clean design, secure locking, and robust ingress protection. Ideal for control boxes, terminations, and field applications where strength, safety, and aesthetics matter.
