

DEHNVENTIL TYPE 1,2 AND 3 COMBINED LIGHTNING CURRENT AND SURGE ARRESTERS WITH INTEGRATED BACKUP FUSE

DVCI1255FM DEHNvenCI, 1 pole backup fuse

- Integrated backup fuse
- High lightning current capacity Handles up to 25 kA (10/350 μ s), suitable for high-exposure installations.
- Low protection level $U_p \leq 1.5$ kV, including the backup fuse, helping protect downstream terminal equipment.

Product description

Built for coordination with the **DEHN Red/Line product family**, it offers high lightning discharge capacity and safe extinction of follow currents, making it suitable for protecting sensitive terminal equipment in commercial and industrial environments.
