- Professional finish – Matches Fibox ABS enclosures seamlessly

### PRODUCT DESCRIPTION

Fibox ABS accessories are designed to complement and enhance ABS enclosures, ensuring secure installation, protection, and usability for electrical and electronic assemblies. Made from durable **Acrylonitrile Butadiene Styrene (ABS)**, these accessories maintain the same strength, reliability, and professional finish as the enclosures themselves.

The range includes mounting plates, wall-mounting kits, hinges, locks, and other fittings to give contractors and panel builders complete flexibility. Whether you're setting up a new installation or upgrading an existing system, Fibox ABS accessories provide a cost-effective and dependable solution.
