

MOUNTING PLATE TO SUIT TEMPO BOXES

MP1912

Mounting Plate Ta - 140x100

- Perfect fit – Designed specifically for Fibox Tempo junction boxes
- Strong and stable – Provides a reliable base for electrical components
- Quick installation – Saves time for panel builders and electricians
- Professional finish – Keeps wiring and devices organised

Product description

Fibox mounting plates are engineered to fit seamlessly inside **Tempo ABS enclosures**, providing a strong and reliable base for fixing electrical and electronic components. These plates allow panel builders and contractors to mount devices neatly and securely, helping achieve a professional and organised finish inside the junction box.

With durable construction and a design optimised for Tempo boxes, these mounting plates simplify installation, improve wiring layouts, and enhance enclosure usability.
