

MOUNTING PLATE TO SUIT MNX ENCLOSURES

MIV125

MNX Metal Mounting Plate 98h x 98w

- Perfect fit – Designed specifically for Fibox MNX enclosures
- Durable design – Provides a strong base for electrical components
- Easy installation – Speeds up panel assembly and wiring

Product description

Fibox mounting plates are designed to fit perfectly inside **MNX polycarbonate and ABS enclosures**, providing a secure base for mounting electrical and electronic components. Made from durable material, these plates simplify installation, ensuring a neat and professional layout inside the enclosure.

Ideal for panel builders and contractors, MNX mounting plates save time on assembly while ensuring equipment is securely fixed and well protected.
