

MNX POLYCARBONATE ENCLOSURES TRANSPARENT

PC125/60HT

MNX PC Transparent 130h x 130w x 60d

- Durable polycarbonate construction – Strong, impact resistant, and lightweight
- Transparent lid – Enables clear visibility of equipment and controls
- Reliable protection – Shields components from dust, dirt, and damage
- Flexible applications – Suitable for industrial, commercial, and outdoor use

Product description

The **Fibox MNX polycarbonate transparent enclosure range** provides durable protection while allowing full visibility of enclosed components.

Manufactured from **high-impact polycarbonate (PC)**, these enclosures are lightweight, tough, and long lasting, making them suitable for both industrial and commercial applications.

The transparent lid makes it easy to inspect equipment, indicators, and controls without opening the enclosure, saving time and reducing downtime.

Designed for reliability, MNX transparent enclosures protect against dust, dirt, and accidental impact while maintaining a professional finish.
