FQ SERIES ELECTRIC ACTUATOR

Quarter Turn

FQ
FQ electric actuator - Part numbers coming soon, contact us for more information

- IP67
- 40Nm to 500Nm
- Working temperature -20°C to +70°C
- Failsafe and ATEX rated Actuator

PRODUCT DESCRIPTION

The Bernard Controls FQ is a range of failsafe electric actuators with reliable spring-return technology, ensuring automatic opening or closing even without power supply. The range covers torques of 40Nm to 500Nm in three phase, single phase and direct current. It has a fast and shock-free valve travel during emergency operation and the Fail Safe condition can be used for operation on detection of emergency signals such as: Loss of Signal, Abnormal Temperature, Loss of Control Power . It is available in quarter turn on/off, modulating and ATEX. These valves are more or less Maintenance-free and have IP67 weatherproofing as standard.

Please refer to the datasheet under 'downloads' for part numbers and/or technical data, we are working on getting all part numbers and technical data on the website as soon as possible.
