STX SERIES ATEX ELECTRIC ACTUATOR

Multi Turn

STX
STX ATEX electric actuator - Part numbers coming soon, contact us for more information

- IP68
- 60Nm to 20,000Nm
- Working temperature -20°C to +70°C
- ATEX rated Actuator

PRODUCT DESCRIPTION

The STX is a range of explosion proof multi turn actuators from Bernard Controls available in a range of torques from 60Nm to 20,000 Nm. It has an Ex d/NEMA 7 explosion proof enclosure and is ATEX, IEC Ex , CSA/FM, CEPEL, GOST-EX Certified. The actuator has IP68 (10m / 96h) weatherproofing as standard. It is available for ON/OFF and Modulating Class III applications and with INTELLI+ intelligent controls. Electromechanical switches are available on request.

Please contact us for part numbers and/or technical data. We are working on getting all part numbers and technical data on the wbsite as soon as possible.
