

## CNF CABLE LUGS

CNF2.5-6

Cable Lug 2.5sq-6mm Copper

- Tube dimensions suitable for fine stranded conductors
- Precise end machining
- Easy entry for cable insertion
- Tin-plated to protect against corrosion

### Product description

Klauke CNF cable lugs are designed for secure, reliable crimping of solid and stranded copper conductors. Manufactured from high-conductivity copper and tin-plated for corrosion resistance, these lugs offer long-term performance across a wide range of electrical applications.

#### Features:

- High-quality copper construction
- Tin-plated finish to prevent oxidation
- Suitable for standard crimping tools
- Wide range of sizes available
- Complies with industry standards

#### Ideal For:

- Panel building
- Power distribution
- Industrial and commercial electrical installations
