

## END PLATES FOR PRK PUSH IN TERMINALS

PAP, PAPD, PTKS-ADH

27104.6

Terminal End Plate PAP2.5/3 Grey for PRK2.5/3

- for PRK, PSL, PRKD, PSLD, PIKD, PVMAK terminals
- Protective Covers for PTKS

### Product description

The end plates are usually installed at the end of terminal rails or when a smaller terminal is used next to a larger one. This ensures contact protection and installation safety. The outer dimensions of the end plates correspond to the dimensions of the terminals. Colour-coded end plates can be used to mark circuits or different voltage levels. The use of end plates increases air gaps and insulation distances, which in turn affects the rated voltage.

### Specifications

|                                   |               |
|-----------------------------------|---------------|
| <b>Color</b>                      | Grey          |
| <b>Country of origin</b>          | DE            |
| <b>Flamklass</b>                  | UL94-V0       |
| <b>Height</b>                     | 28.7          |
| <b>Length</b>                     | 60.4          |
