AQI 75/6/11, 75 pole External Cross connector for RK1.5-4/RKD4/BKA4/VMAK2.5

- Insulated for protection
- Reliable & secure fixing

Product description

External cross connection links makes it possible to connect potentials of terminals where there is no option of a central cross connection channel. These links are quicker, easier and a more reliable way of linking than using wire links with ferrules. When using the external, the rated cross section of wire is reduced to the next smallest size.
