Product description

EFFI-Flex is a product that suits your needs with different lens adjustment positions. It 's an adjustable product in terme of wavelength, a compact and easy to install product.

The EFFI-Flex led bars are fitted with high power LED. Through its diffusers (transparent, semi-diffuse and opaline) and polarizers, EFFI-Flex provides a directional, darkfield or diffuse lighting adapted to many machine vision applications.

Specifications

Angle of emission	25
Approvals	CE, RoHS
Central Material	Aluminium
Color	Blue
IP Class	IP50
Length	235
Number of LED	10
Operating temperature	0°C - 50°C
Optional linescan filter	Yes
Optional polarising filter	Yes
Supply voltage	24
Type of lens	Opaline
Wave-Length	465
Width	51
