EFFILUX - EFFI-SMART LED BAR LIGHT

Double row LED bar light

SMART-06-405-TR-P0
2 row bar light, 6 LED, UV 405, transparent, N/L

- Chainable: Double I/O connectors
- Auto-strobe
- Built in driver
- Waterproof (IP67)

Product description

The EFFI-SMART is a duel row high power LED bar light, with a choice of 3 diffuser plates (clear, semi-diffuse, diffuse) so the user can create a suitable balence between power and homegeneity.
Integrated controller for dimming or auto-strobe functionality, offering 700% increased intensity in strobe mode as compared to continuous operation. To overcome challenging working environments the EFFI-SMART has a robust design with IP67 rating.
The highly flexible design allows users to easily adjust lens positioning and diffuser plates when necessary.

Other wavelengths and lengths available, contact us for more information.

Specifications

Angle of emission	90
Approvals	CE, RoHS
Color	Ultraviolet
Connector/controller	2 x M12 5 contacts (1 male & 1 female)
IP Class	IP67
Length	66
Number of LED	6
Operating temperature	0°C - 45°C
Optional linescan filter	Yes
Optional polarising filter	Yes
Supply voltage	24
Type of lens	Transparent
Wave-Length	405
Width	70
