

MAGNATROL TYPE D NORMALLY CLOSED SOLENOID VALVE

TYPE-D

Part numbers coming soon, contact us for more information

- Full Port Normally Closed Valve ½" to 2" NPT
- Maximum static pressure 150PSI
- Valve operates from zero pressure
- Valve Body – Cast Bronze, Globe Pattern – NPT ends

Product description

The type D valve is a direct acting normally closed solenoid valve capable of controlling the flow of water, air, gas, solvents, vacuum and many other fluids. Buna N seating of the orifice make the valves ideal for TIGHT SEATING, LOW PRESSURE and LOW FLOW conditions. Valve operates from zero pressure.
