GECKO ENCLOSURES

22.922.218 Gecko S, rear wall C (29x29)

- Maximum lens diameter 55mm in profile, 52mm in front lid
- Inner length 162mm (XSA), 174mm (XS), 233mm (S) and 268mm (M)
- Good heat dissipation, IP66 rated
- Wide selection of accessories available for mounting and maintenance

Product description

Enclosure Configurator

On the outside, the Gecko enclosure features the same dimensions as the Salamander. Due to the thinner wall however it offers slightly more room for cameras that just do not fit into the Salamander range. The Gecko is currently used for Vision Components VC4XXX and the Flir ax5 thermal imaging cameras (with Germanium windows). The Gecko is available with rear wall A, B or C as well. The Gecko is also compatible to autoVimation's Machine-Vision Construction Kit, based on dovetail profiles and mounting brackets.

autoVimation offers a wide selection of enclosures to suit even the most specific requirements. To find a suitable enclosure please see the Enclosure Configurator (link above) or contact OEM Finland sales team for additional info!

Specifications

Central Material	Anodised aluminum
Height	66
Inner length	178
IP Class	IP66
Length	190
Max camera height	53

Max camera width	39
Max connector size	26.5
Max lens diameter	55
Weight	660
Width	66
