

DRAW-WIRE ENCODER SERIES B75

D8.15

- Maximum linearity $\pm 0,35\%$
- Working temperature -40°C to $+85^{\circ}\text{C}$
- Protection level IP65
- Mechanical speed 0,8 m/s

Product description

The B75 draw-wire encoder can be used up to a measuring length of 3 meters.

These draw-wire mechanics may be combined with the proven Kübler Sendix encoders with incremental or absolute interface, as well as with analog sensors, which are also available in redundant version.
