PRODUCT DESCRIPTION

The Gryphon GD4500 product series from Datalogic represents the premium level of hand held scanners for general purpose applications. The dedicated optics specifically designed and uniquely tailored for the Gryphon, exploit a megapixel sensor and distinctive technology with highly visible warm-white illumination to achieve outstanding omnidirectional reading performance. Because of the increased motion tolerance, codes placed on fast-moving objects can be easily and quickly captured, creating the ideal hand held scanner for tasks requiring high throughput.
Whether in department or specialty stores, in hyper stores and supermarkets, convenience stores or groceries, the Gryphon GD4500 scanner fits most any retail in-store requirement for POS checkout.

A specialized model with red illumination provides the ultimate Digimarc® Barcode reading, as Digital Watermarking has become a new reality for top retailers.
In the dedicated models with Disinfectant-Ready and Anti-Microbial enclosures, the Gryphon I GD4500 scanner is the ideal companion for Healthcare applications such as in laboratories and bedside point-of-care.
