

DATALOGIC - VSM VISION SENSOR MONITOR

DATAVS2-VSM
Vision Sensor HMI, 3.5" colour LCD

- Fits all DataVS2 models
- Monitor with 3.5" LCD colour display
- Uses interface with 8 push buttons, 8 LEDs
- Display of images, results and statistics

Product description

VSM is an external monitor compatible with all DataVS2 models. The unit shows images, results and statistics of the checks that the sensor carries out. The parameters can also be finely adjusted via the monitor.

Formulas that are stored in the sensor or in the VSM unit can be changed via the monitor. The monitor has a memory for 20 formulas.

The monitor can be connected via a LAN network to be able to access several sensors with the same monitor.

Specifications

Electrical connection	M12 4-pin connector
IP Class	IP20
Material Protection	ABS plastic
Power consumption max	0.15
Temperature range from	-10
Temperature range to	55
Voltage DC max	24
Voltage DC min	24
Voltage Tolerance	10%
