

WIRE CONNECTORS AND PUSH IN

30-5025EU

Push In and Lever Wire Connector Kit (80

- Tool-free installation – simply push in the wire for instant connection.
- Time-saving – reduces installation time compared to traditional screw connectors
- Safe & secure – vibration-resistant and designed to prevent accidental disconnection.

Product description

At Demesne, we supply a complete range of **wire connectors and push-in connectors** designed for fast, secure, and maintenance-free electrical connections. These connectors simplify installation by allowing direct insertion of conductors without the need for tools, saving both time and effort.

Built with durable, high-quality materials, our connectors ensure consistent performance across residential, commercial, and industrial applications. Whether you're wiring lighting circuits, junction boxes, or control panels, push-in technology guarantees a reliable connection every time.

Specifications

Color	Blue, Yellow, Clear, Orange, Red, Black, Transparent
Connections	1 to 8
Cross section single wire from	0.2
Cross section single wire to	4
Cross section stranded wire from	0.14
Cross section stranded wire to	4
Height	8.8
Operating voltage	450
Pack Size	40
Rated current copper	32

Push In and Gen II Lever Wire Connector Kit:

- 10 x 32A 2 port Gen II Lever Wire Connectors
- 10 x 32A 3 port Gen II Lever Wire Connectors
- 5 x 32A 5 port Gen II Lever Wire Connectors
- 10 x 32A 2 port Push In Wire Connectors
- 10 x 32A 3 port Push In Wire Connectors
- 10 x 32A 4 port Push In Wire Connectors
- 10 x 32A 6 port Push In Wire Connectors
- 15 x 32A 2 port SplitLine® Wire Connectors

IDKAL Gen II Lever wire connectors are a cost effective solution for joining solid, stranded or flexible conductors. The innovative levers open in the opposite direction of the insertion point and lock in position to avoid accidental loosening or pull out.

Rated at 32A, they are reusable and can accommodate multiple wires of different types and sizes from 0.2mm² - 4.0mm² for solid and stranded plus 0.50mm² - 4.0mm² for flexible wires.

IDKAL Push In wire connectors can reduce installation time by up to 50% compared to more traditional connection methods such as terminal blocks. They are the perfect replacement for crimped splices with 2, 3 and 4 port models rated at 32A.

The SplitLine® in line wire connector provides a crimp free solderless butt splice accepting up to 4.0 mm² solid wire allowing one connector to do the job of multiple through crimps.

All connectors are CE, UKCA and UL listed and fully compliant with the 18th edition wiring regulations in the UK.
