TOUCH SAFE LOOP HEATER 20-40W - LTS 064

LTS

02800.000 STEGO Touch safe Fan assisted 150W heate

- Low surface temperature
- Shock and vibration proof
- Wide voltage range
- Double insulated
- Pressure clamp connections

Product description

Improved heating power to volume and temperature distribution than standard heaters, thanks to the new loop design. 50% quicker installation time due to pressure clamp terminals. Vibration-proof for harsh conditions, e.g. High vibration impact in environments such as transport or wind power Certified for use in the rail industry

Example of connection

Heater LTS 064
