PRODUCT DESCRIPTION

The **Partex Black on White Number Markers** are a reliable solution for fast and professional cable identification. Designed for **cables sized 0.75sq to 4sq**, these markers feature bold black print on a clean white background, delivering excellent readability in all conditions.

With **200 markers per pack**, they are perfect for electricians, contractors, and panel builders who require efficient and long-lasting identification. Manufactured to Partex's high standards, these markers are resistant to wear and ensure clear labelling throughout the life of the installation.
