- Speeds up cable identification and maintenance

PRODUCT DESCRIPTION

The **Partex Black on Yellow Number Markers** are designed for quick and reliable cable identification in electrical installations. Suitable for cable sizes ranging from **0.75sq to 4sq**, these markers ensure high visibility and long-lasting durability.
The bold black print on a bright yellow background provides excellent contrast, making numbering clear and easy to read, even in low-light conditions. Supplied in convenient **packs of 200**, they're an ideal choice for electricians, panel builders, and contractors who need efficient and professional cable marking solutions.
