PRODUCT DESCRIPTION

The **Partex Black on Yellow Number Markers (Roll of 1000)** are designed for professional cable identification in electrical installations. Suitable for **cables from 0.75sq to 4sq**, these markers feature bold black print on a bright yellow background for maximum readability, even in low-light conditions. Supplied on a **continuous roll of 1000**, they are ideal for large-scale projects where fast, consistent, and cost-effective cable marking is required. Manufactured to Partex's high standards, the markers are durable, resistant to wear, and ensure clear identification throughout the life of the installation.
