- Helps with fast cable identification and maintenance

PRODUCT DESCRIPTION

The **Partex Black on Yellow Number Markers** are designed for quick, professional cable identification. Suitable for **cables between 6sq and 10sq**, these markers feature bold black print on a bright yellow background, ensuring excellent visibility in all lighting conditions.

Supplied in **packs of 100**, they are durable, easy to apply, and ideal for electricians, contractors, and panel builders who need reliable identification for larger cable sizes. Built to Partex's high standards, these markers are resistant to wear and maintain legibility over time.
