

CARRIER STRIP FOR POK- PKT 100

POH12

Cable Marker Holders 70Mm For Pk

- Designed for use with Partex POK markers
- Provides secure mounting for cable identification markers
- Ensures clear visibility of numbers and letters

Product description

The **Carrier Strip for POK** markers is designed to provide a reliable and professional solution for cable and wire identification in electrical installations. Made from **durable, lightweight materials**, these strips hold Partex POK markers securely in place, ensuring that cable numbers and letters remain clearly visible. Each strip is designed to snap easily onto cables, harnesses, or panels, making them suitable for **switchgear, control cabinets, and industrial wiring systems**.

Supplied in a **packet of 100**, these carrier strips help electricians and engineers organise identification markers efficiently, speeding up installation and maintenance tasks.
