BLACK ON YELLOW NUMBERS OVAL 4SQ-6SQ - ROLL 500

POK10BYR0(ZERO)
Cable Markers Black On Yellow (Roll 500)

- High-contrast black on yellow for maximum readability
- Oval profile ensures a snug fit and prevents rotation
- Resistant to heat, oil, and abrasion for long service life
- Saves time during installation, maintenance, and fault finding

PRODUCT DESCRIPTION

The **Partex Black on Yellow Oval Number Markers** are designed for clear and reliable cable identification in demanding environments. Suitable for **4sq to 6sq cables**, these markers feature **bold black numbering on a high-contrast yellow background**, ensuring excellent legibility during installation and maintenance.

Supplied on a **roll of 500**, the oval shape provides a secure fit around the cable, preventing slippage while maintaining long-lasting readability. Manufactured from durable, fade-resistant material, these markers are trusted by electricians, panel builders, and contractors worldwide.
